

CINNAMON MCGHEE

Cinnamon was brought into our family with the help of Muttmatchers. The staff at Muttmatchers did exactly what they are known to do – match their dogs with appropriate owners. After careful review and inspection they were able to place Cinnamon into my family. With my children grown and gone to lead their independent lives, I was left with the “empty nest syndrome” and with cinnamon choosing me to live with was a blessing. She is our everything, filling our household with joy. As a traveling nurse, it is a great pleasure to take cinnamon with me wherever I may go. We brought her to Prescott where she experienced her first snow and to San Diego twice where she fell in love with the morning walks on the beach. As I get older, having cinnamon helps me with my health, by her taking me on walks.
