

Mutt Matchers & Friends were so helpful in finding the right dog for us. They explained everything that was needed for us to adopt our dog, Nestlee', a wonderful lab mix. She was just what we were looking for, and now is the "Queen" of our home.

Mutt Matchers took their time with us, and made sure that we were also the right people to adopt our Nestlee'. She was a highly trained dog and they wanted to ensure that we were trained in her commands and signals so she would obey us immediately. They also came to our home to make sure that she would have a safe and secure yard in her new environment.

We were so impressed with all the wonderful people that work for that organization. They all work so hard to find good homes for all their dogs, and give them the care and love they need until the right people come along to adopt them. Our grandchildren just love our Nestlee', and ask if she can go home with them every time they come to visit.

Anyone looking to adopt a dog should take time to go to Mutt Matchers & Friends, they will help you find the right dog for you! You will see and feel the love that everyone there gives to each and every dog in their care.

Thank you Mutt Matchers
