

Hi fellow Mutt Matchers graduates. My name is Regis and these are my new parents, Marv & Betty. My sisters name is Debbie, but she wouldn't get in the picture. They call me the hunter because I am always chasing rabbits, birds, lizards and chipmunks in my back yard. I caught a rabbit the other day but my Dad made me let it go. He sure got out of my yard quick afterwards. I like to chase trucks and ATV's too but they are out on the street and I am behind the wall so I never catch them. It is good exercise though and keeps me in shape. I got my rattlesnake vaccine shots last month and I hope the rest of you do too. I hear the snakes are bad here in Kingman this year. I have a really good life here in my new home and am glad Mutt Matchers rescued me and saved me for Marv & Betty. I have them pretty well trained now and they really spoil me. I have a nice king size bed to sleep in and I share it with Mom & Dad. I'm happy for you other dogs that have found good homes through Mutt Matchers and I hope all future rescued dogs do too. Love my Mutt Matchers friends, especially Judy and Terry. Hope you all have a good day.

Regis
